NEW MASSAGE & BODY TREATMENT

Hot Stone Massage

Hot stone massage therapy melts away tension, eases muscle stiffness and increases circulation and metabolism. Each hot stone massage therapy session promotes deeper muscle relaxation through the placement of smooth, water-heated stones at key points on the body.

Bamboo Massage

In Bamboo-Fusion Massage, warm pieces of bamboo of different shapes and sizes are used to provide Swedish or deep tissue massage. The warmth melts the outer layer of muscle. For those who like deep work, the bamboo tools allow for deeper pressure than the hands alone can provide. The massage satisfies two major needs: relaxation and well being.
